Manish Jat

Data Analyst | ML Developer | Gen-AI Full Stack
Chennai, Tamil Nadu | 8302141276 | jatmanis1.mail@gmail.com | github.com/jatmxai

SUMMARY

Data Analyst and B.S. Data Science student (IIT Madras) with experience in data validation, data quality analysis, and structured dataset management. Skilled in analyzing datasets to identify gaps, inconsistencies, and data quality issues using SQL, PostgreSQL, Python (Pandas, NumPy), and rule-based validation. Proficient in Microsoft Excel (pivot tables, VLOOKUP, data cleaning), data preprocessing, metadata documentation, data mapping, and preparing reports and summaries for business teams.

EXPERIENCE

Gen-AI Full Stack Intern Jun 2026 - Sep 2026
DesiCrew Solutions Chennai

- Built automated KYC data validation on DCOP for 6+ document types (PAN, GST, bank, NDA, vendor forms); applied business rules and validation checks to improve data completeness, accuracy, and consistency across 100+ partner records.
- Created and maintained data dictionaries, field-level documentation, and mandatory document schemas for 2 onboarding flows; supported Finance teams with structured metadata and audit-ready validation outputs.
- Delivered audio annotation quality platform processing 10,000+ records with 5 raters per item; tracked inter-annotator agreement metrics and exported structured JSON and CSV reports for downstream analysis.
- Built AnnoFlow workflow system with a 51-table PostgreSQL schema; validated 10,000+ task rows per upload, tracked batch row errors, and generated CSV audit reports for data quality monitoring.

Django Developer Aug 2025 - Feb 2026
JJM Software Bhilwara

- Analyzed structured data across 5 production applications; resolved 70+ data inconsistencies and supported 700+ tickets related to validation, bug fixes, and documentation over 7 months.
- Improved PostgreSQL query performance by 30% through indexing and query optimization; designed 8+ REST APIs with standardized validation rules for consistent data handling.

PROJECTS

DocMind - Production Document Q&A Platform | Python • FastAPI • PostgreSQL • Redis • Google Cloud Run

- Built document ingestion and validation workflows for PDF and CSV sources with structured metadata storage and traceable query responses.
- Monitored data quality and source coverage across multi-tenant datasets with PostgreSQL-backed audit trails.

Retail Analytics - Shree Balaji Mobile Care | Python • Pandas • Microsoft Excel • Seaborn

- Performed ABC analysis, forecasting, and regression on sales and inventory data; unlocked Rs. 2.1M in dead stock and recovered Rs. 527K revenue with Excel-based reporting.

Zomato Review Rating Prediction | Python • Scikit-learn • LightGBM • XGBoost

- Built NLP analysis pipeline to predict user ratings from review text with 80% classification accuracy using feature engineering and cross-validation.

Invoice OCR Evaluation Platform | Python • Pandas • FastAPI • Microsoft Excel

- Built invoice data extraction with validation flags for missing fields and mismatches; scored 50+ records against ground truth and exported accuracy reports to Excel.

TECHNICAL SKILLS

Data Analysis and SQL
SQL, PostgreSQL, data analysis, data preprocessing, EDA, statistics, data validation, data quality checks, anomaly detection, data mapping, schema understanding, query optimization, Python, Pandas, NumPy

Microsoft Excel and Reporting
Microsoft Excel, pivot tables, VLOOKUP, XLOOKUP, conditional formatting, data cleaning, charts, summary reports, CSV export, business metrics tracking, report writing

Data Management and Documentation
data dictionaries, metadata, field-level documentation, business rule validation, source onboarding, completeness checks, accuracy checks, consistency checks, data transformation, issue tracking, structured reporting

EDUCATION

Indian Institute of Technology Madras 2023 - 2026
Bachelor of Science in Data Science and Applications, CGPA 7.8

SVGMS, Bhilwara 2020 - 2022
Senior Secondary (PCM), 79.8%
